STANDARD COMPONENTS: All About Farming Trailer – 20Ft.

1. **TRAILER SIZE: One (1) X 20' gooseneck trailer (28' total length)** attractively wrapped to engage audiences and provide a backdrop for the educational kiosks. The trailer is wired should electricity be needed for any of the displays.
2. Up to eight (8) of eleven (11) educational metal **kiosks (opening at 8 feet wide x 2 feet deep x 7 feet tall per kiosk)** that roll off the trailer and open up to display a variety of agricultural exhibits intended to help the non-farm population learn more about farming and the source of their food. Commodities may include dairy, sheep, pork, eggs, beef, turkey, broiler chickens, crops, environment, pulse crop, or local foods. All kiosks will have information for audiences to pick up. (e.g. recipes, fact sheets, etc.). Mystery boxes can be incorporated into the kiosk display.
3. The Trailer and displays will arrive on-site at a time mutually agreed upon by the event organizers and the driver. On occasion, due to trucking logistics, it may be necessary for the display to remain onsite past the closing time of your event. This will be discussed between the Event Organizer and the Driver.
4. If possible, it is preferred that the trailer be included in the kiosks display area to provide a more effective overall display. If event space availability does not permit placement of the trailer with kiosks, then parking for the trailer must be provided on the grounds as close to the kiosks as possible.
5. One (1) additional roll-off bin that opens up to display “Mini Maple the Cow” (a hands-on learning tool to educate about the dairy industry), as well as one (1) roll-off bin with various models of farm machinery for children to play with, within the display area may be included if discussed prior to set-up date.
6. An electrical outlet is required for “mini Maple”.
7. All required electrical cords will be supplied by DFC and will conform to ESA standards. The Event Host is responsible for providing safety covers for all cords within the display. Setup will take into account to minimize cords within the traffic areas of the display.
8. You are required to provide two (2) volunteers with an Agriculture background to be present with the trailer for its duration at your event. *If requested for a fee, two (2) Durham Farm Connections Agricultural Ambassadors may be available to be on-site with the trailer and kiosks during operating hours of the event to engage with the visitors. Parking and admission passes must be provided for all DFC Ambassadors for their time present. **Please see fee schedule regarding Ambassador details**
